

Virtual Event Ideas

Share Your Talents

Share your special skills and put your talents to work! Whatever your passion and interest (cooking, jewelry making, playing guitar, wine tasting), turning it into a fundraising event is simple. Host an event and invite your coworkers, classmates, friends and neighbours to participate and contribute. Also, if you have a friend or know someone else with special skill or talent, ask them to share it or even start their own fundraiser for Arthritis Society Canada.

A-Thons and Tournaments

Start a Walk-a-thon, Yoga-a-thon, or Dance-a-thon! Host a video game, board game tournament or a karaoke competition. These events are a great way to bring friends together to participate in doing something you all love while raising money to fight the fire of arthritis. Participants invite their friends and families to donate in support of their participation in these events. Online fundraising pages are a great tool to support these events.

Birthdays & Special Occasions

Host a party and encourage friends and family to donate to Arthritis Society Canada in lieu of receiving gifts. What better way to celebrate!?

Social Media Challenges and Fundraisers

Ever done an Ice Bucket Challenge? Or the Planking Challenge? Create a challenge of your own on social media and help spread the word and raise money for Arthritis Society Canada. If challenges are not your thing, a Facebook Fundraiser is a great way to share why extinguishing arthritis is important to you. Ask your Facebook friends to donate to your fundraiser or even in honour of your birthday!

Workplace Campaigns

Organize lunch trivia over Zoom and collect a donation to participate. Inquire if your workplace offers corporate matching programs. Host a bake sale, do a promotional draw – if you can dream it, you can do it!

Get Active

Challenge yourself and others to a yoga or Tai Chi class, walk, run, bike or workout. There is no one way to move, or a specific day to do it, just pick your way to move, create a fundraising page, and ask your friends and family to support you.
